EXPERIENCE

Quasar Flash, São Paulo, BR — *Senior Frontend—Software Engineer*

SEP 2020 - PRESENT

Leading, guiding, and coaching a team with three developers.

Creation of a design system using Stitches and Radix. This has resulted in a visually consistent platform that enhances the user experience.

Main techs: JavaScript, React, Typescript, CI/CD, React, Kubernetes, Docker, and AWS.

XPORY.COM, Goiânia, BR — Frontend and Mobile—Software Engineer

DEC 2019 – SEP 2020

Develop and integrate new features for xpory.com e-commerce platform, frontend using React, and mobile using React Native.

Gather requirements with product area and design solutions to achieve business needs.

Main tech: React, React Native, JavaScript, Styled Components, Redux.

Interagi Technology, Goiânia, BR — *Full Stack—Software Engineer*

MAR 2019 - DEC 2019

Work together with different clients to understand their needs and design tech solutions.

I have gained exposure to diverse technologies and have been privileged to work on high-profile projects for Brazilian government websites, such as CNJ, CNMP, IPEA, and the Brazilian Defense Minister.

Main techs: PHP, React, JavaScript, MySQL

SKILLS

I have experience with a wide range of tools, including:

React, JavaScript, Node, Typescript, GraphQL, React-Query and Redux

I've applied these skills in multiple companies that I worked.

HIGHLIGHTS

Lead the Frontend team, **Quasar Flash** and **Designed** the new users and admins platforms.

Helped to implement a **Design System** that resulted in a visually consistent platform, **enhancing the user experience** inside Quasar Flash

Implemented **code review and frontend tests culture** to the Frontend team.
